COMPANY PROFILE

NAME: DMN COMPUTERS

COMPANY BACKGROUND

Established in 2004 DMN Computers is an ICT company registered under Malawi registration laws. Our strong belief is to put customers first in everything we do and strive to offer the best to our clients. This has helped us build a strong client portfolio from both national and international. Some of our clients are based in the UK and we offer services through remote access to them.

WHAT WE DO

At DMN Computers we are working hard to make ICT easy in Malawi. With well qualified ICT Technician and Web Designers we stand out as the best. We are expert in web design and Maintenance and Graphic Designer, ICT Consultancy, Computer Training, Networking both Cabling and Routing, PC Repair and troubleshooting all kinds of computer problems, Domain registration, transfer and email configuration, Data Recovery, Computers, Computer Accessories and Laptop Sale.

Data Recovery: At DMN Computers we believe that data is precious therefore it needs to be handled with care. We are experts at data recover on lost information caused by damaged or malfunctioning storage devices, crushed windows and operating systems. We also run a backup system and help you store or recover data from storage devices.

Web Designers: We are experts in web design and maintenance and updating using ASP.NET, HTML, Dreamweaver, Joomla and others.

Email Services and Domain registration: We understand how important emails are to your business. With DMN Computers you can maintain your emails and have a smooth transfer to a cheaper and affordable without losing the name. For example name@yourdomain.mw

It's only DMN Computers that handles OUTLOOK with excellence and allows you to access your email through OUTLOOK **anywhere in the world.**

Don't worry about losing connection we will help you move to use smoothly working hand in hand with your current provider until the connection is complete.

We will work hand in hand with your current providers to avoid disruption of communication or loss of emails until a full transfer is made.

We successfully help Management International with a smooth move and maintenance of their email addresses an international service provider.

ICT Consultancy: We provide our clients ICT consultancy both technical and training at the best and affordable choice that will benefit your financial expenditure. We offer a structure analysis of your organisation's ICT need and give you from our finding what you need for your organisation. This includes what to purchase and compare the ICT market for you.

We help you identify problems faced in your ICT departments and come up with ways on how to solve them. We also advise you on the service providers that are affordable and what they offer.

PC Repair and troubleshooting: At DMN Computers we are experts in computer repair and troubleshooting. We install and re-install up-to-date computer software that suits your need. We also help in virus and spyware removals.

With our secure remote access systems it doesn't matter where you are; at DMN Computer we can troubleshoot and diagnose your system from anywhere in the world so long as you are connected to the internet. This means that we can help you solve some problems anywhere you have travelled on business trip in the world.

Computer Training: At DNM Computers we believe in making ICT easy as a result we run a computer training scheme both at group or individual level. We make the training easy and train our clients from the basic level at the pace of their understanding to the level that they are capable to do more.

Networking both Cabling and Routing: At DMN Computers we are experts in keeping you connected and we do networking both cabling and routing at affordable prices.
